

CV for ISMBE site– Steli Loznen

Steli Loznen received his M.Sc. degree in electronics engineering from Bucharest Polytechnic University, Romania in 1974.

He is a worldwide recognized Expert in compliance and safety of electrical products, quality management, international regulatory affairs, risk management, usability, production and related fields. During the last three decades, as Israel representative, has been involved in the IEC international standardization on medical electrical equipment. In 2017, in recognition for exceptional achievements in these activities, he was awarded the IEC “1906 Award”. He is an IEEE Senior Member as well as a member of IEEE-PSES-Technical Committee Board of Governors and Chair of IEEE-PSES Israeli Chapter. Among his 7 published books the most substantial is “Electrical Product Compliance and Safety Engineering” – 2017 published by Artech House. Steli authored more than 40 publications in magazines and conference proceedings, for which he received several Best Paper awards. He contributed more than 110 presentations (including invited and plenary lectures) at seminars and conferences and serves on the editorial board of Medical Devices Technology magazine. Since 2005, he is the Treasurer of ISMBE - Israel Society for Medical and Biological Engineering and in 2018 was made Honorary Member of ISMBE.
